ECOLOGY & EVOLUTIONARY BIOLOGY

SEMINAR SERIES 2017

Dr. Nancy Johnson
Northern Arizona University

Nancy Collins Johnson is the Director of the School of Earth Sciences and Environmental Sustainability. Her research group studies interactions among microorganisms and plants. They are especially interested in understanding the factors that regulate the degree to which mycorrhizal interactions are mutually beneficial and how they influence plant communities, soil stability, and belowground carbon storage.

A tale of two grasses: Ecological Stoichiometry and Mycorrhizal phenotypes

Host: EEB Graduate Student Organization

14 November, 2017

3:45 PM

1005 Haworth Hall
